Hi Jennifer and Jesse – One of the things I forgot to chat about today was the press notice. We have attached a draft notice for you to review. I highlighted a statement about deletion. Not sure if you want to include that or revise it at all?

Also – we did not include a statement about updating the CIP – do you want to? Not sure if you want the CDPHE logo on this one or not, but we included it in case you do.

I know today is your last day in the office, but in case you wanted to try to get it published before you were out, or when you got back to the office, I wanted you to have a draft.

Please let us know if you would like us to make any changes.

Treat
